

Dear {contact.first},

Welcome the April edition of the Clinerion Courier!

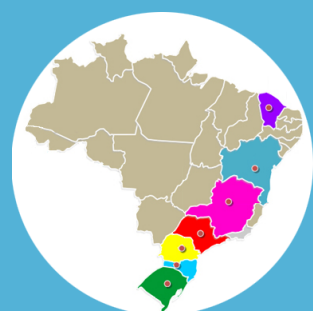

We are thrilled to say that our global Clinerion Community of hospitals continues to grow and we are able to expand Patient Network Explorer coverage to more and more patients around the world. Among the news coming from all quarters, we are pleased to pull together exciting recent news from Brazil, in this edition.

Enjoy!

Your Clinerion Team.

Four new hospitals in Brazil join Patient Network Explorer, bringing the total in the country to 17 hospitals and coverage of over 7 million patients.

The four newest Brazilian hospitals to join the global community of partner hospitals on Clinerion's Patient Network Explorer platform are:

- Hospital São Lucas – PUCRS, Porto Alegre, Rio Grande do Sul
- Hospital Martagão Gesteira, Salvador, Bahia
- Hospital Ana Nery, Salvador, Bahia
- Centro Regional Integrado de Oncologia (CRIO), Fortaleza, Ceará

They are projected to go online in Patient Network Explorer by the end of May, 2021, with thanks to our partner, iHealth Group.

Introducing: the First Clinerion Research Ambassador

Nadine Abdelhadi
Clinerion Research Ambassador

[View profile](#)

We are pleased to welcome Nadine Abdelhadi, M.sc, PhD, BCPS, CPT, as our very first Clinerion Research Ambassador.

Clinerion Research Ambassadors are brilliant scientists around the world who have significant experience in their area and conduct advanced long-term research projects in clinical research, RWE or related scientific fields. Through the Clinerion Research Ambassadors, we aim to promote research throughout our Clinerion community; at the partner institutions, and among the individual members, their peers and colleagues.

News

New partner: Clinerion and Medexprim join forces to combine clinical and imaging data for research.

Clinerion and Medexprim will set up a joint offering which allows access to de-identified, enriched, longitudinal data points derived from complex medical data sets, which combine electronic health records and their corresponding clinical images, to improve research and help patients receive better care.
