## Clinerion Patient Recruitment System on Tour

We're coming off a high from the past few weeks, spent on our North American launch tour for the Clinerion [Patient Recruitment System \(PRS\)](#). We had a great time meeting everyone at the [SCOPE Summit](#) in Miami, and then [HX360/HIMSS16](#) in Las Vegas. It's been a great opportunity to show PRS in North America and to demonstrate how it can boost the effectiveness and efficiency of the clinical trial process for sponsors and bring more trial opportunities to hospitals and clinical research sites. Thank you for your interest - we are already in the middle of follow-ups with everyone and looking forward to working closely with you.

Clinerion was also pleased to participate in the inaugural conference of The European [Institute for Innovation through Health Data \(i~HD\)](#) in Paris.

The i~HD aims to become the European organization of reference for guiding and catalyzing the best, most efficient and trustworthy uses of health data and interoperability, for optimizing health and knowledge discovery.

Next Up ...

Clinerion will next be attending the [DIA's 28th Annual EuroMeeting](#) in Hamburg, April 6-8, 2016 and [Clinical Trials in Central and Eastern Europe](#) in Warsaw, April 19-20, 2016.

Let us know if you are attending either of these events as well - it will be a great opportunity to meet!

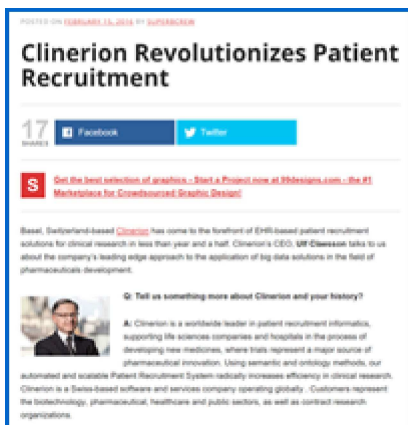

Clinerion's next booth will be at the [UK e-Health Week](#) (also organized by HIMSS), in London, April 19-20, 2016. We will give live demonstrations of the Patient Recruitment System at Booth #45, while our Head of Sales, Tigran Arzumanov, will give a presentation on the "TED Talks" stage on the exhibition floor, entitled "Needle in a Server Stack - clinical trial patient recruitment using multi-hospital EHR integration" at 11.00 a.m., Tuesday, April 19, 2016. Hope to see you there!

## Clinerion in the News

We have been thrilled with some recent coverage of Clinerion and PRS in the news. Thanks to the nice people at CenterWatch and SuperbCrew!

["Clinerion Revolutionizes Patient Recruitment"](#) - an interview with Ulf Claesson, CEO of Clinerion, by SuperbCrew.

["Clinerion debuts Patient Recruitment System in North America"](#) - an article in the February 1, 2016 edition of CWWeekly, the weekly publication from CenterWatch. [CWWeekly is only available to subscribers.](#)

### New Partnerships

We are very pleased to announce that Clinerion is now officially a partner of the [International Clinical Trial Center Network \(ICN\)](#), the network of leading worldwide academic and government-based hospitals and clinical research institutions.

We are also thrilled to report that Clinerion has become a partner of [eClinicalHealth](#), the platform for clinical trials offering end to end support throughout component processes, such as online recruitment, education, and data capture.

We will issue more details about both these partnerships very soon - watch this space!

### Quality Risk Management Webinar: Video Now Available!

Our webinar demo on new interfaces for our Risk Based Monitoring System in January was very popular and the [video can now be streamed from our website](#) for your viewing convenience.
