

Dear {contact.first},

Welcome to the August edition of the Clinerion Courier!

A holiday period for some, but we have kept ourselves busy! Lots to tell you all about, in this edition, from our newly published patent, which covers EHR search across hospitals, to the launch of the Clinerion Research Community, a platform for members of Clinerion's ecosystem to share expertise and create collaborative projects together.

Below, we also remind you about tools within Patient Network Explorer which support site selection and patient recruitment. And we update you on how our Clinerion community is expanding.

As promised, we have a slate of livestreams and webinars coming up over the next few months, wherein friends, partners and users, leading lights from our network, talk about the issues they face, and how they see the future in a digitalized world.

Enjoy!

Your Clinerion Team.

Clinerion patent for technology underpinning Patient Network Explorer is published

Clinerion's new patent underpins any medical EHR database infrastructure that incorporates a hybrid model of cloud-and-local server node installations at individual hospitals, as well as any method for search of patient cohort care metrics across such a platform. This allows real-time search at each individual hospital across the entire network at once, returning aggregate metrics from the entire network. This technology forms the basis of Clinerion's Patient Network Explorer.

Welcome to the Clinerion Research Community!

We are very pleased to invite you to join our Clinerion Research Community!

The Clinerion Research Community will be the communication and exchange platform for the global hospital network and ecosystem around Clinerion's Patient Network Explorer.

The Clinerion Research Community is intended to foster collaboration and exchange between members of the community in the fields of clinical research, epidemiology, and real-world evidence generation.

On this platform, you, and all the other clinical experts, thought leaders, and eminent researchers, may find each other to collaborate on research projects, share best practices and experiences, and find common solutions.

The Clinerion Research Community is a closed LinkedIn Group. Membership to this Group is free, but limited to researchers and staff at our partner sites, as well as staff of SMOs, CROs, pharmaceutical companies and governmental authorities.

If you would like to join the Clinerion Research Community, simply click here and "Request to join"!

Get re-acquainted with what Clinerion can do for you

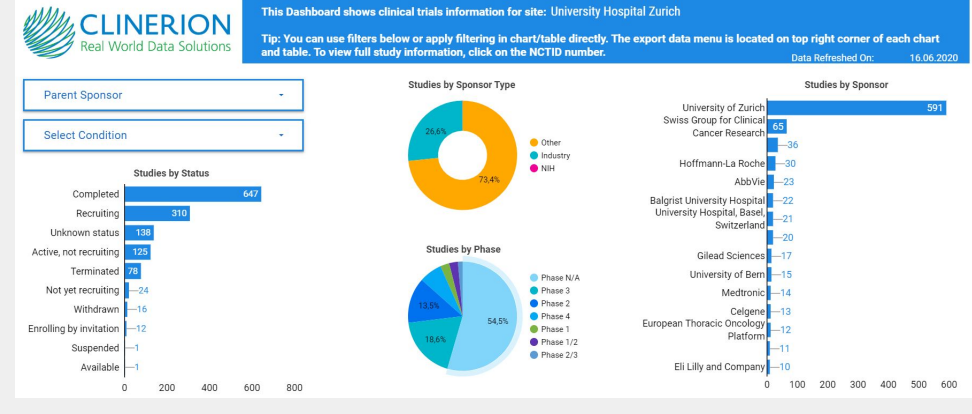

Patient Finder: real-time patient cohort search and identification with electronic health records

We've created a nifty new logo for it, but Clinerion's Patient Finder remains the same dashboard you already know within Patient Network Explorer, accessible only to hospital staff, which allows them to re-identify suitable study cohort candidates. Patient Finder enables faster and more efficient search and identification, leading to more patients enrolled.

Site Clinical Trial Performance Data

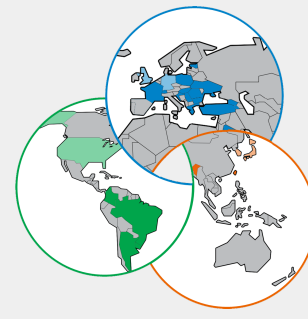

How do you select the right sites for your clinical trials? If you want to understand more about a trial site's past performance, Patient Network Explorer also shows current and historical Site Clinical Trial Performance data for all partner hospitals and trial sites in Clinerion's worldwide patient network, powered by the LongTaal database.

TRIAL ID	Study Title	Phase	Study Status	Study Type	Location	Start Date	End Date	Completion Rate
NC123456	Study of X in Management of YOPC Patients	Phase 1	Completed	Clinical Research	USA	1/1/18	10/1/19	100%
NC234567	Molecular Biomarkers for Breast	Phase 2	Recruiting	Clinical Research	USA, Europe	1/1/20	10/1/21	80%
NC345678	Advanced Therapeutic in Stage III Prostate Cancer	Phase 3	Recruiting	Clinical Research	USA, Europe, Asia	1/1/19	10/1/21	95%
NC456789	Study of Progression in the Treatment of Epithelioid Lip Sarcoma	Phase 1	Completed	Clinical Research	USA	1/1/18	10/1/19	100%
NC567890	Study of the Efficacy and Safety of Zoledronic Acid in Postmenopausal Women	Phase 2	Completed	Clinical Research	USA, Europe	1/1/15	10/1/19	100%
NC678901	A Study Evaluating the Safety, Efficacy and Pharmacokinetics of [Drug Name]	Phase 1	Completed	Clinical Research	USA, Europe	1/1/20	10/1/21	100%

News

Our coverage expands!

Clinerion's wide and distinct coverage offers benefits of supporting clinical research around the world, as well as supporting cohort diversity. Since the beginning of 2021, Clinerion's global network has expanded prodigiously. Here's an overview:

Hospitals that went online so far, in 2021:

- Bedfordshire CCG, multiple cities, United Kingdom
- Hospital Sao Lucas da PUCRS, Porto Alegre, Brazil
- Hospital Martagão Gesteira, Salvador, Brazil
- Hospital Ana Nery, Salvador, Brazil
- Integrated Regional Oncology Center (ORIO), Fortaleza, Brazil

Hospitals who have joined so far in 2021 (soon to be online):

- Clinic Foscal, Floridablanca, Colombia
- State Children's Hospital (HEC), Feira de Santana, Brazil
- Children Hospital Sabara, São Paulo, Brazil
- MedRadius, Maceio, Brazil
- NotreDame Intermedica Group, São Paulo, Brazil

Look out for announcements in our News section >

Safa Selim
Frontend Developer

Our team expands!

We are thrilled to welcome Safa Selim, our new Frontend Developer.

Safa has more than 2 years of web application development experience in projects, all startup applications. His goal at Clinerion is to gain knowledge and learn new techniques to contribute to the projects of the company.

Webinars

We're preparing a full program of webinars in Q3 and Q4.

Please bookmark our website's Webinars page to stay informed of all the details as we announce them!

Accelerating Drug Development Timelines with Big Data Analytics
Date: September 1, 2021

A live fireside chat with Clinerion CEO Bariş Erdoğan by Natalie Yeoman of Impetus Digital (livestream).

[See details >](#)

Rare Disease Patient Cohort Identification Using AI/ML Models and Federated EHR-based Real-world Data Infrastructure, with Volv Global
Date: September 21, 2021

Speakers / participants:

- Otto Skoran, Svabhegy Paediatric Hospital
- Handan Umur, Sanofi
- Christopher Rudolf, Volv Global
- Douglas Drake, Clinerion Ltd

[See details >](#)

Harnessing real-world data: how clinical trials benefit from digitalization
Date: October 5, 2021

Organized with the support of the Society for Clinical Research Sites (SCRS)

Speakers / participants:

- Vladimir Misik, LongTaal
- Doree Diniza-Jones, NHS NIHR CRN, Greater Manchester
- Luis Magalhaes, Clinerion Ltd
- Agnieszka Gackowska, MD, Parexel International

Details to be confirmed.

Webinar on predictive analytics, with Datamatrix
Date: November 9, 2021

Speakers / participants: Clinerion Ltd, Datamatrix, & others to be announced.

Details to be confirmed.
